

Italgas: UNI ISO 37001 anti-corruption certification renewed for Group companies

Milan, 23 November 2021 - Italgas has obtained the renewal of the UNI ISO 37001:2016 "Management systems for the prevention of corruption" certification for Italgas S.p.A. and the subsidiary Italgas Reti S.p.A. for a further three years, and has confirmed the maintenance of the same certification for a further 8 Group companies: Toscana Energia, Medea, Italgas Acqua, Gaxa, Seaside, Umbria Distribuzione and Metano Sant'Angelo Lodigiano.

This system, adopted on a voluntary basis and certified in accordance with the internationally recognised standard, was verified by the independent certification organism DNV-GL Business Assurance Italia following a long and thorough audit process.

*"We strongly believe that the governance of any Company - commented Italgas CEO, **Paolo Gallo** - cannot disregard values such as transparency and legality. The decision to subject all of the Group's companies to this verification process is in line with our vision of business and represents the basis of our daily actions".*
