

Dear Colleagues,

It is a great pleasure to communicate to all of you our warmest welcome to the Italgas Group.

Today a long and demanding course has been concluded. First and foremost, we were preoccupied in providing the best offer regarding the acquisition and development of DEPA Infrastructure and in implementing the necessary steps in order to give substance to our perspectives.

Hence forward, our two realities become one. We are a unique large Group capable of representing effectively not only the historic bonds between Italy and Greece, but also being able of acting as an industrial and technological benchmark in Europe and globally. Finally, we will cope with meeting our target of decarbonization according to our respective economies.

Over the following months we will be committed to deep into our reciprocal knowledge, pooling experiences and skills, sharing know-how, resources, projects and stimulating each other to achieve even more important goals.

There are many common values that identify us, that is to say, taking care of the people, operational excellence, continuous innovation and at the same time the commitment of all of us shall be focusing on turning our differences into elements of strength, mutual enrichment, and integration.

Today, an extremely important journey launches for Italgas, Depa Infrastructure and its companies and for both our countries. We are decisively aiming towards goals that will reduce the carbon footprint and take a leap into the future of energy supply. A future that will pivot on digital networks and renewable gases.

We will continue to ensure that our Group will always provide you with a safe and stimulating environment, in which to grow and actively contribute to the achievement of industrial and energy transition goals.

Welcome aboard and good luck to us all.

Paolo Gallo
Chief Executive Officer
Italgas

Barbara Morgante
Chief Executive Officer
Depa Infrastructure

Peter Durante
