

## **Italgas confirmed for fourth consecutive year in S&P Global Sustainability Yearbook**

*Milan, 7 February 2023* - Italgas has been included for the fourth consecutive year in the **Sustainability Yearbook**, the annual publication by S&P Global that collects best practices, experiences, case histories from world's top sustainability leaders.

Italgas also confirmed its leadership with inclusion in the 'Top 1% S&P Global ESG Score' category, thanks to its excellent performance.

The result was achieved after the Corporate Sustainability Assessment (CSA) conducted in 2022: 708 companies, out of 7,800 assessed, were included in the Sustainability Yearbook 2023 based on their ESG scores.

This achievement is further confirmation of Italgas' focus on the key criteria of sustainability, environmental, social and governance, as well as its commitment to achieving targets to reduce the carbon footprint and energy consumption associated with its activities.
