

Italy-Turin: Low voltage installation work
2023/S 134-425224
Annex to the Qualification System – Public Utility Services

II.2.4) Description of the procurement

This notice concerns the Construction and ordinary and extraordinary maintenance works on civil and industrial electrical systems, data, telephony and similar for civil use (see Product Group LL02AB20).

II.3) Description of the works, services or supplies to be procured through the qualification system:

With this notice, aimed exclusively at Individual Legal Entities, Italgas, for its activities, and their subsidiaries and investees, is intended to draw up lists of qualified suppliers from which candidates may be selected for tenders for works, goods or services conducted by the above-mentioned individual entities or by Italgas. Qualification as a Permanent Grouping of Companies requires the positive assessment of the individual suppliers associated and compliance with the provisions of the Contracts Code.

Section III: Legal, economic, financial and technical information

III.1) Conditions for participation

Candidates can view all the conditions for taking part in the suppliers section of the Italgas portal by accessing the following link:

<https://www.italgas.it/en/suppliers/>

III.1.1) Qualification for the system:

Candidates must give an affirmative response to the following questions in the Qualification Questionnaire on the Italgas Purchasing Platform.

Candidates must therefore meet the following requirements:

- Economic-financial requirements:

Have an average turnover of €250,000 over the last 3 years

- Technical requirements:

Have a directly employed total workforce of no less than 15 people, which includes at least the following specialisations:

- 1 Informed Person - PAV in accordance with CEI 11-27;
- 1 Expert Person - PES in accordance with CEI 11-27;
- 1 Qualified Person - PEI in accordance with CEI 11-27.

IMPORTANT: possession of the certification by a single operator is acceptable

For each professional figure: role, years of experience, certificate number and expiry

Have a company licence in accordance with Decree 22 January 2008 no. 37 letter a) systems for the production, transformation, transport, distribution, use of electrical energy, systems for protection against atmospheric discharges, as well as systems for the automation of doors, gates and barriers.

HSEQ requirements:

- o ISO 9001 certification (Quality Management System)
- o ISO 14001 certification (Environmental Management System)

- o In the absence of a 14001 or EMAS certification, a statement declaring that procedures are in place for the identification, management and control of environmental aspects

- o ISO 45001 Certification (Health and Safety Management System)
- o In the absence of an ISO 45001 certification, a statement declaring that procedures are in place to manage and control occupational health and safety aspects.

Candidates must prove that they have an internal company quality management system, whether self-monitored or imposed by the parent, corporate and/or Group parent company. The scope of the certified management systems must be consistent with the activities envisaged in this qualification system.

III.1.9) Methods according to which each of those conditions will be verified

In order to access the qualification process for the Product Group covered by this qualification system, candidate suppliers must fulfil all the specific requirements (economic-financial, technical, HSEQ) listed above.

Evidence of fulfilment of the specific requirements (economic-financial, technical, HSEQ) is provided by answering and confirming the questions in the qualification questionnaire.
