

Italy-Turin: Installation of security devices

2023/S 026-074398

Annex to the Qualification System – Public Utility Services

II.2.4) Description of the procurement

This notice concerns the construction and maintenance works of integrated security systems (see Product Category LL04AG04) INSTALLATION, MAINTENANCE AND CONSTRUCTION OF INTEGRATED ELECTRONIC SECURITY AND VIDEO SURVEILLANCE SYSTEMS.

II.3) Description of the works, services or supplies to be procured through the qualification system:

With this notice, aimed exclusively at Individual Legal Entities, Italgas, for its activities, and their subsidiaries and investees, is intended to draw up lists of qualified suppliers from which candidates may be selected for tenders for works, goods or services conducted by the above-mentioned individual entities or by Italgas.

Qualification as a Permanent Grouping of Companies requires the positive assessment of the individual suppliers associated and compliance with the provisions of Legislative Decree 50/2016.

Section III: Legal, economic, financial and technical information

III.1) Conditions for participation

Candidates can view all the conditions for taking part in the suppliers section of the Italgas portal by accessing the following link:

<https://www.italgas.it/en/suppliers/>

III.1.1) Qualification for the system:

Candidates must give an affirmative response to the following questions in the Qualification Questionnaire on the Italgas Purchasing Platform.

Candidates must therefore meet the following requirements:

- Economic-financial requirements

Have an average turnover of €3,500,000 over the last 3 years relating to: installation, maintenance and construction of integrated electronic and video surveillance security systems

Have an average turnover of €1,300,000 over the last 3 years relating to the maintenance of electronic security systems

- Technical requirements:

Have maintenance contracts for electronic security systems, each worth no less than €50,000 over the last 3 years.
Have contracts for the installation of integrated security systems, each worth no less than €120,000 over the last 3 years
Provide list with: customer, year, contract type (direct or temporary grouping of companies), description of the activities, quantity, amount, execution times, location
Have the technical capacity relating to the following activities: design, installation, execution, restructuring and maintenance of specific electronic security processes with expertise in the construction of electromechanical, electric, telephone and electronic systems, pneumatic systems and anti-intrusion systems, as well as data transmission networks and similar switching systems for public or private networks, local or inter-city, telecommunication systems for telephony, data and videos on copper wires, fibre optic, radio-electric instruments, phone satellites, data transmission networks, complete with all related masonry, complementary or ancillary work
Have a Technical Manager with adequate and documented experience in the sector of activity and/or who is authorised to sign all types of certifications pertaining to the activity, employed regularly at the date of the request
Provide a copy of the Curriculum Vitae of the Technical Manager employed regularly at the date of the request
Have an adequate technical and operating structure formed of at least 10 authorised, regularly employed engineers
Have at least 24 employees, employed regularly
Have at least one operating office in Italy
Have direct and/or adequate territorial coverage through a network of stable partners

- HSEQ requirements:

- o ISO 9001 certification (Quality Management System)
- o ISO 14001 certification (Environmental Management System)
- o In the absence of a 14001 or EMAS certification, a statement declaring that procedures are in place for the identification, management and control of environmental aspects
- o ISO 45001 Certification (Health and Safety Management System)
- o In the absence of an ISO 45001 certification, a statement declaring that procedures are in place to manage and control occupational health and safety aspects.

Candidates must prove that they have an internal company quality management system, whether self-monitored or imposed by the parent, corporate and/or Group parent company. The scope of the certified management systems must be consistent with the activities envisaged in this qualification system.

III.1.9) Methods according to which each of those conditions will be verified

In order to access the qualification process for the Product Group covered by this qualification system, candidate suppliers must fulfil all the specific requirements (economic-financial, technical, HSEQ) listed above.

Evidence of fulfilment of the specific requirements (economic-financial, technical, HSEQ) is provided by answering and confirming the questions in the qualification questionnaire.
