

Italgas: Sustainability Yearbook inclusion confirmed

Milan, 18 February 2026 - Italgas has been included for the seventh consecutive year in the Sustainability Yearbook by S&P Global, the annual publication that brings together the global sustainability leaders.

For 2026, Italgas has confirmed its position among the top performers by securing a place in the “Top 1% S&P Global CSA Score” category, based on the results of the 2025 Corporate Sustainability Assessment (CSA 2025). Out of more than 9,200 companies assessed, 848 were selected for inclusion in this edition.

The recognition adds to the major sustainability achievements recorded by Italgas over the past 12 months, such as the inclusion in the FTSE4Good index series, the confirmation of the inclusion in CDP's “A-List” for Climate Change, the AA rating by MSCI ESG Ratings, as well as the “Low Risk” rating from Sustainalytics, indicating a low level of exposure to material financial impacts from ESG factors.
