

Italgas: disposal of the first 4 ATEMs completed in compliance with the AGCM resolution that authorized the acquisition of 2i Rete Gas

Milano, 2 marzo 2026 – Italgas announces that it has finalized yesterday the disposal of 100% of the gas distribution activities in the ATEMs of Bari 2, Barletta-Andria-Trani, Pisa and Teramo to the temporary consortium (ATI) formed by Plures, Estra and Centria.

Overall, 120,000 active redelivery points (meters), the networks, the plants, the related personnel and the net assets instrumental to the management of the service – previously contributed to a newly established company – were transferred for a total consideration of €108.5 million¹.

The disposals were carried out in compliance with the AGCM resolution authorizing the acquisition of 2i Rete Gas and in line with what was communicated on 9 October.

The transfer of the activities relating to the remaining 8 ATEMs is expected to be completed in the second quarter of 2026.

¹ Price subject to possible post-closing adjustments based on positive or negative balance settlements.
