

**Italy-Turin: Public services
2026-OJS127-00460968**

**Annex to the Qualification System
Product Category SS07AA16 Water transport service by land and sea**

Section I: Procedure (2.1)

This annex to the notice in question concerns land and sea transport services. Transport by land is carried out by tanker trucks and transport by sea by tankers.

Section II: Purpose (2.1.1)

With this notice, addressed exclusively to Individual Legal Entities, Italgas, for its activities and their subsidiaries and affiliates, aims to compile lists of qualified suppliers, from which candidates may be selected for tenders for works, goods or services conducted by the individual parties indicated above or by Italgas. The qualification of the Permanent Groupings requires the positive assessment of the individual associated suppliers and must comply with the provisions of the Procurement Code.

Section III: Legal, Economic, Financial and Technical Information

III.1) Conditions of participation

The candidate can view all the conditions of participation on the Italgas portal, suppliers section, by accessing the following link:
<https://www.italgas.it/partner/fornitori/bandi-avvisi/sistemi-qualifica/>

III.1.1) System Qualification:

The candidate must answer positively to the following questions in the questionnaire on the Italgas Purchasing platform.

The candidate must, therefore, comply with the following requirements:

- Economic and financial requirements:

Have an average turnover of €500,000 in the last 3 years.

- Technical requirements:

Ground transportation:

Be registered in the National Register of Road Hauliers of natural and legal persons who carry out the road transport of goods on behalf of third parties;
Be equipped with a HACCP Self-Control Plan;
Have at least • 2 (two) tankers with a capacity greater than or equal to 10.01 cubic meters approved for the transport of bulk foodstuffs (pursuant to art. 48 of Presidential Decree no. 327 of 26/03/1980) and equipped with prior health authorization (pursuant to art. 44). The parts of vehicles intended to come into contact with water must comply with current legislation (Ministerial Decree no. 174 of 06/04/2004 - Regulation concerning materials and objects that can be used in fixed systems for

the collection, treatment, adduction and distribution of water intended for human consumption;

- n° 6 (six) mobile tanks for the storage and distribution of drinking water with a capacity of 5 cubic meters insulated and built in such a way as to avoid any contact between the water contained and the outside, ensuring the protection of any possible pollution, according to the technical indications given by the Hygiene and Public Health Service of the Prevention Department of the Local Health Authority, in compliance with the provisions of the Ministerial Decree 26/3/1991 and the subsequent regulations issued on the subject.

Water transportation:

Have valid tankers with technical and sanitary suitability for the transport of drinking water, attested by a valid authorization for the maritime transport of drinking water, issued pursuant to art. 2 of Interministerial Decree no. 474 of 10 October 1988 following an assessment carried out by a special technical commission, pursuant to art. 5 of the aforementioned Interministerial Decree. This authorization must be possessed regardless of the nationality of the ship that will be used for the performance of the service.

Have RINA approval (or equivalent for foreign vessels) of the vessel

Have tankers that meet all the technical and health requirements expressly provided for in points a), b), c), e), f) of Article 7 of Interministerial Decree no. 474 of 10 October 1988.

HSEQ Requirements:

- o ISO 9001 Certification (Quality Management System);

The candidate must demonstrate that he/she has an internal company quality management system, whether it is self-controlled or imposed by the parent company, corporate and/or parent company. The scope of the certified management systems shall be consistent with the activities provided for in this qualification system.

III.1.2) Verification methods for each condition

In order to access the qualification process of the Goods Group subject to this qualification system, the candidate supplier must meet all the specific requirements (economic-financial, technical, HSEQ) listed above.

Evidence of the possession of the specific requirements (economic-financial, technical, HSEQ) is provided by filling in and confirming the questions of the qualification questionnaire.
