

**Italy-Turin: Public services
2026-OJS127-00460968**

**Annex to the Qualification System
Product Category SS08AD12 Gas and water activities at the PDRs and PDAs of end
customers**

Section I: Procedure (2.1)

This annex to the notice in question concerns gas and water activity services at the redelivery points (PDR) and water points (PDA) of end customers.

Details of the services required are as follows:

- a) Meter installation,
- b) Meter replacement,
- c) Activating and closing meters,
- d) Initialization and attestation of electronic meters, through the use of a probe (when necessary), to a remote reading management system,
- e) Other activities at the customer's premises such as, for example, simple arrears and complex arrears (cutting of risers also with the aid of cranes),
- f) Readings, integrity checks, function checks, transmission checks, etc.

Section II: Purpose (2.1.1)

With this notice, addressed exclusively to Individual Legal Entities, Italgas, for its activities and their subsidiaries and affiliates, aims to compile lists of qualified suppliers, from which candidates may be selected for tenders for works, goods or services conducted by the individual parties indicated above or by Italgas. The qualification of the Permanent Groupings requires the positive assessment of the individual associated suppliers and must comply with the provisions of the Procurement Code.

Section III: Legal, Economic, Financial and Technical Information

III.1) Conditions of participation

The candidate can view all the conditions of participation on the Italgas portal, suppliers section, by accessing the following link:

<https://www.italgas.it/partner/fornitori/bandi-avvisi/sistemi-qualifica/>

III.1.1) Qualification for the system:

The candidate must answer positively to the following questions in the Qualification questionnaire on the Italgas Purchasing platform.

The candidate must, therefore, comply with the following requirements:

- Economic and financial requirements:

Have an average total turnover of €1,000,000 in the last 3 years.

- Technical requirements:

Have contracts with a subcontracting share not exceeding 30% of the value of the same, in the last 5 years, for the following activities at the Redelivery Points (PDR) and Water Points (PDA) of end customers: - meter installation, - meter replacement, - activation and closure of meters, - initialization and attestation of electronic meters, through the use of a probe (when necessary), to a remote reading management system, - other activities at the customer's premises such as, for example, simple arrears and complex arrears (cutting risers also with the aid of cranes), - readings, integrity checks, function checks, transmission checks, etc.
Provide list with: customer, year, type of activity, description of subcontracted activities, technical characteristics, amount (€)
Have at least 12 employees, regularly hired
Have the following figures with specializations available: - 1 site assistant, with at least 3 years' professional experience in the gas distribution sector, - 1 pipe worker; - 1 laborer for each team, - 1 head of the Prevention and Protection Service (RSPP), - 1 employee of the Prevention and Protection Service (ASPP) with experience gained in the distribution sector
Have or have at least nr. 5 gas detectors
Have or have at least nr. 5 water dispersion detectors
Have or have at least nr. 5 vans and/or equipped vehicle
Have or have appropriate road signs
Have the latest generation i-Pads (at least from the ninth onwards) in such a number as to assign one per team
Declare that the drivers of your vehicles transporting hazardous waste are in possession of the CFP ADR (ADR License)
Provide the names of drivers in possession of this document

- HSEQ requirements:

- o ISO 9001 Certification (Quality Management System)
- o ISO 14001 Certification (Environmental Management System)
- o ISO 45001 Certification (Health and Safety Management System)
- o In the absence of 14001 or EMAS Certification, you certify that you have procedures for the management, identification, management and control of environmental aspects
- o In the absence of ISO 45001 Certification, it is certified that it has procedures for the management and control of the health and safety aspects of workers.

The candidate must demonstrate that he/she has an internal company quality management system, whether it is self-controlled or imposed by the parent company, corporate and/or parent company. The scope of the certified management systems shall be consistent with the activities provided for in this qualification system.

III.1.2) Verification methods for each condition

In order to access the qualification process of the Goods Group subject to this qualification system, the candidate supplier must meet all the specific requirements (economic-financial, technical, HSEQ) listed above.

Evidence of the possession of the specific requirements (economic-financial, technical, HSEQ) is provided by filling in and confirming the questions of the qualification questionnaire.
